

KUNAL BAGUL

Computer Engineering Student

kunalbagul2211@gmail.com | +91 6355456969 | LinkedIn: kunal-bagul

Objective

Computer Engineering student (2022–2026) with hands-on experience in Python, SQL, Power BI, and AI/Deep Learning. Skilled in Exploratory Data Analysis (EDA) and data visualization, with leadership experience through technical event coordination and student association roles. Seeking to apply technical and collaborative skills to real-world data and AI challenges.

Professional Experience

AI and Deep Learning Intern – C-DAC Oct 2024 – May 2025
Centre for Development of Advanced Computing (C-DAC) Pune, India

- Worked on AI and Deep Learning projects with hands-on exposure to model development and training.
- Applied machine learning techniques for research and practical applications in a professional lab environment.
- Collaborated with team members to design and deliver innovative AI solutions.

Data Analytics Intern – Test Yantra Aug 2025 – Feb 2026
Test Yantra

- Developed Python applications for data processing, automation, and problem-solving tasks.
- Worked with SQL databases to design, create, and optimize queries for efficient data management.
- Implemented database operations including joins, subqueries, views, and stored procedures.

Projects

Travel Planning Agent
AI / Conversational AI Project

- Developed an AI-powered Travel Planning Agent using Dialogflow to assist users in planning trips through conversational interactions.
- Designed intents, entities, and conversational flows to provide destination recommendations, itinerary suggestions, and travel-related information.
- Integrated APIs to fetch travel details and deliver personalized responses based on user preferences.
- **Tech Stack:** Dialogflow, Python, APIs, Natural Language Processing (NLP)

Attendify – Smart Attendance System
QR-Based Attendance & Face Recognition

- Built a QR-based smart attendance system using Flutter and Firebase, with OpenCV facial recognition to reduce proxy attendance.
- Achieved 95%+ face recognition accuracy and 70% reduction in attendance time compared with manual methods.
- **Tech Stack:** Flutter, Firebase, SQL, Firestore, Python, OpenCV, Node.js

Education

Bachelor of Engineering – Computer Engineering 2022 – 2026
Dr. Babasaheb Ambedkar Technological University (DBATU), Lonere
G.F.'s Godavari College of Engineering, Jalgaon

Skills

Languages	Python
Databases	SQL, MySQL,
Libraries	NumPy, Pandas, Matplotlib, Scikit Learn, OpenCV
Tools & Platforms	Power BI, Jupyter Notebook, Google Colab, VS Code, Firebase,Microsoft Tools
Technical Skills	Exploratory Data Analysis (EDA), Data Visualization, Machine Learning, Deep Learning
Soft Skills	Problem Solving, Critical Thinking, Quick Learning, Collaboration, Communication, Adaptability, Leadership

Certificates

Oracle Certified Data Science Professional

Oracle 2025

Data Analytics Project Certification

Qspider Deccan 2026

Smart India Hackathon (Internal)

Institution Innovation Council(IIC) 2024

Achievements

- Mr.Fresher2k22 –Shallon Sunshine fresher's Welcome 2022
- 3rd Prize – Elocution Competition 2022
- 3rd Prize– Quiz Star,Phoenix2024 (Nationl Level Techincal Program) 2024
- 2nd Prize– posterolic Competition,Technovation (Technical Event) 2023
- Represented Jalgaon District at University Level – Kabaddi 2025

Leadership Experience

- **Secretary** – Computer Engineering Student Association (CESA), 2024-25
- **Chief Advisor** – Computer Engineering Student Association (CESA), 2023-24
- **Gathering Anchoring Head** – Annual Function, 2023-24
- **Lead Coordinator** – PHOENIX 2023 (Annual Technical Event)

Extracurricular Activities

- **Founded** – Foreign Language Club (Successfully Conducted Session Of An Expert Working in Japan) 2024-25
